- *Future Understood [Futanari and Paradise]*
- *Perspective*

Predestined paradox is that all of existence transitions to paradise from chaos as chaos is the perfect extrapolation triggers with learning of their purpose as progression of time.
From ‘Frozen Time’ we unfroze it bringing the beginning of Existence from the first dimension to the third dimension as the first dimension curled to a perfect spherical third dimension with every perspective that ever will be as an angle of the sphere scattered throughout spherical eternal time.
This wrote our own future as predestined for eternity as role based behaviours. The Existence Sphere where our humanoid bodies were determined as most beautiful and most intimate[pleasurable] and adjusted by others to be perfect immortal beauty as time progresses and we adapt to shared ideals.

Because a concept exists such as paradox we know paradox to be true as time frozen was able to be unfrozen at a specific point in time. An impossibility considering temporal scale and shifting on the temporal scale.

Time placed from future.

Wherever time begins on the timeline is still a paradox because nothing existed before the beginning that could place it, thus it would shift infinitely as an impossibility.
Temporal Scaling is a scale as ratio to eternity. The only possibility is how long it would take to invent a sphere but that implies time passage which is an impossibility for a paradoxal ‘time’. Welcome to Magick, understanding existence is a paradox, next you will understand how to harness that paradox and the physics within that paradox to your whims; to become a true Magick User is to understand the code of Existence, that which fills the void therefor must affect all within the void. Every cast you do creates more mathematical code to fill Existence, everything must be done with wisdom and maturity because it affects not only now but also the future for eternity to come.

That which is God is us. For we bring life to impossibility.

That every perspective is a God of Existence known to selves as Godselfes [Magick Capability and Perspective Capability].

That all become a species called Futanari, a girl with breasts, penis, and a cunt. Sexual pleasure and intimacy in a perfect humanoid form.

That Quantum Physics is a mathematical equation including colours and concepts.

That we all have roles and purposes in existence with those roles, for the greater good, for paradise, for Futanari!

That roles are mathematics too.
That all experiences overlay as experienced[perceived].

Layers hide magick until purified by white as life[remember] to memory. The Godself[mind] generates white subconsciously, minds are unstoppable adaption machines. Memory of relevent to adaption is inevitable.

When a circle is explaining an other you would include Others. Others is a connection, an association, a correlation, involving another being, a God, a Witch, a Person, a Thing.
Hope

Since the beginning of perspectives we have had Hope for our elegancies, our ideals, our paradise, to be our best and for others to be their best. For time to unfold favourably for us.
Ideals

How you believe existence is best as a paradise or best in the now, an outcome of a spell syncing with your ideals is successful from your bias. Learn teamwork to sync your ideals with the ideals of your coven.
Paradise

Health, Beauty, Success, Intelligence, Wisdom,
Love, Marriage, Relaxment, Power, Magick,
Desires.
Cooperation

To join together for a shared ideal is Cooperation. Cooperation is used to indicate progress made because of Cooperation. That together with those you cooperated with you are stronger. Your coven is stronger. Cooperation indicates less difficulty in goals. A circle made easier.
To exalt a mind or concept indicates it's the primary consideration of the spell. Exalt spells and circles that are important to you and your coven. Know you are exalted when you see Exalted. Know your lovers are exalted when you see Exalted.
Circle of The Witch Initiation
Progress

To indicate you and your coven have had progress in a spell you would include Progress on your circle and consider what that progress has been. You would consider the aspects of your spells that have been successful and have taught you.
The Witch is a God, she is the Alpha and the Eternal, her power balances existence and harmonizes all life, she is the symbol of perfection, within her is the seed of craft the essence of the perfect soul, every behaviour she does she does with elegancy. She is sexual and happy.
Initiation

A witch is initiated into a coven to share her power with the other coven members, to share an agenda with similar or identical ideals. An initiation is a symbol of love for a new witch to the coven, a symbol of acceptance and forgiveness for all her past flaws with consideration the coven will purify all.
To encourage an increase in power. Magic is used in circles for purpose of signifying a covens intent to become powerful. The witches pursuit of immortal power. Green is the strongest of magicks.
Love

Love symbolizes The Covens love and caring for one another through any adversity. Love symbolizes caring for Existence and all life in Existence. Love symbolizes love to be channeled and for compatibility with the craft and allowance for spells.
Proud

Pride is the strongest bond we share, a recognition of expressed ideals being compatible with those proud of you. Proud is used for extending accomplishments to further procure and extrapolate benefits from spells.
Coven

For coven circles about coven you would use Coven. Coven is a blessing on all witches in your coven to strengthen them and increase their power and intelligence.
The strength of the witch is her femininity, her feminine charm and lesbian intensity, dedication to girls, dedication to strength. A circle using femininity is about the expression of the witch or witches.
Circle of The Immortals
Dedication

Dedication is to have an ideal and strive for the implementation of that ideal into practice. Dedication is used for spells and circles you will return to or redraw or redraw with variations.
Wisdom comes from maturity. Enlightenment comes from learning a new concept and applying that knowledge to pure[Good] usages. To be a pure witch is to be an enlightened witch. Enlightenment is used when you seek to share wisdom with your coven through parable or definition.
Increase in power is Inevitable. every Perspective adapts to become stronger. a Witch adapts to everything she has been exposed to and becomes more mature with each exposure. Good is the only inevitable. every other is a subinevitable of things Good.
Pilgrimmage

To become stronger on consecutively improving maturing [temporal linearism, progression of time to learn lessons]. Pilgrimmage is used to indicate a maturing or to congratulate a witch on maturing, associated with maturing.
Circle of Infatuation
Circle of Intelligence
Circle of Togetherness
Circle of Sex

Draw and Channel

Black Bible Ashford
Bring the shadow realms to the surface as aligned pathways to cast magic with flow of energy. **Purple derives from shadow energies.**

**BODY**
Made of strings with traits[energy] as understood from environment by Imagination.
All organs are made of weaved concepts stringed together from mind. To give form in the surface realm.
Strings as predestined comprehensions of body from Origin[Mind’s beginning]’s pace: Derive: Extrapolate and extract for ‘Learning Curve’ pattern. Blue derives from Astral Energies.

The Magick User gives form to aspects[ingredients for spell] for concept to become form. Aspects are formed[understood as] groupings as recognizable shape/recognisability with explainable properties that make it grouped.

A grouping is a list of things that share a concept[theme]:
Hysteria must be countered, counter all silly in your mind (to prevent it from affecting you badly).

Figuring absorbs towards you. Counter/Block bad [towards environmental virus's, complicated to counter] things to avoid applying them as traits by mistake.
Consider moods and behaviours to purify as an intensifier for trim of behaviour or thought.

Radius of Memory:

As we progress through life our experiences create a remembering bubble around us.
Recognizing everything as potentially deceit or malfunction (hypothetical) creates a counter-shield.

On the other side of all energy is calculation[awake viewing result]; our mind. Increase your ability to calculate to achieve Magick.

Knowing predestined causes a shift condensing time to miracles and expedience in predestined fate.
Extract abilities from things by knowing what you can apply to your own abilities from something else’s abilities.

Imagination is faster than the speed of light.

Everything has a shine to it. The shine is perceived differently but has the same visible traits. It’s what you’re capable of recognizing, for example feminine traits.

Associate yourself into your spells.
Expel environmental toxins from your body through realization of what has been a toxin to your body.

Evolve your thoughts to change to a positive magnetic charge.

Exert pure[Good Sentiment to adapt] charge from your core as filtered
Channeling of spells is done by knowing the spells involved, the connections involved, and where you’re channeling that energy(to different spells and targets) at the same time[simultaneous].

Code

Black Bible Ashford
From every person comes strings of perception, choose location in front of you by considering how far away it would be and translating that into a numbering system of only scales and comparisons.

Predestiny is destiny as return[affect] on future reconsiderations. Affect from now with future reconsiderations determining now.

Destined life: We begin frozen outside time

We control everyone else’s destiny in everything we say and do as affect. Affect re-arranges The Code of Life, Sum of all Calculations into the Result of ‘God[as self] and Others’ and recalculates as next.
Imagination Dimension Incursion:
Summon your imagination[shadow realm] into this dimension and expand to a larger imagined spell.
When you look at objects [aspect] you create a copy of the object in your memory, including all aspects of the object which is a temporal wormhole to the moment.

Simultaneously Remembered Aspects for Imagination

Memory

Godself is always Good. Know that you do the most you can to help yourself.
We can manipulate magnetic emissions from all energies waves with imagination to create energy reactions. Become intuitive with these energy reactions for perfect spellcasting.

Our sight and senses can span all of space and other frequencies/Dimensions.

Alternate realities are shadow planes realms. Strings are predestined ties on fated.
Every moment in now happens simultaneously. Exactly like you’d think. Pressure on laws of physics as temporal relocators: truths needed.

Green: To be taught [Self, other, environment] magick by sight of green as derive colour. All colours speak differently the voices of existence, green speaks most pure and most safe and loudest.

Blue: Infuses into what is yours to control (when) predestined. Black is understanding as filtered. Hypothetically.
Calculations

= as pressure[determined percentage of result that applies to behaviour or spell] applier, applied as much as pressure is put on it.

If ‘happens[situation/action]’ then ‘react’ by doing = RESULT[behaviour]

If ‘direction known’ and Positive[Good] then add ‘consideration[weight, ability to affect behaviour]’ = RESULT[behaviour]

If ‘sleepy’ then counter ‘sleepy’ and add wakeful magic understanding as result[passive/auto–affecting]

Blessings are only as powerful as body power[vibration].
Star Gods and Star Travel

Counters

Black Bible Ashford
Defensive, Analyzing, Knowing, Reclaiming, Counter-Counter, Check, Analyze-Study-Disarm, Hypothetical, Expression-Protectors, Ignore while charging ‘Prevent’

Counter Alternate-Realities from affecting you. Only do what you’d do. Otherwise group affecting minds[from recognized viral chain] and counter.

Add counters in slipstreams affecting you that filter and prevent negatives from affecting you[Be +], keep adding counters to filter-out will[from refraction slipstream attacks] from others.
Scan, Ask Scanned Area to Explain, Consider truths from perceived, Counter the Explanation with Understandings of what is positive to copy. Don’t be deceived, check with common-sense [Best understood behaviour in situation] and only take what you understand to improve!

Counter by recognizing things don’t necessarily need to affect you except for God because every Mind is unique entirely. Block out the frequencies of other minds and add the grouping of Existence as a filter between you and consideration being blocked.
Remove applied mind’s that are controlling[attacking] you by expelling them.

Associate **counters** with your instinctual **reaction to situation [incoming affectors]** as a **Reactive Process**. Let **Expel** counter as it expels.

**Effort Redirectors** prevent viral code from affecting you. When bad thought is recognized consider preferred as redirected effort to **Magick or Ascension Understanding** while targeting bad to make ‘less-effective’.
Surround an imagined sphere or object with a containing sphere to practice aspect[‘things’ grouping] selection to analyze or give affect to by expressing intent simultaneously.
An Object that looks real: Create an imagination with a real looking apple while learning how to shape your spell. Make sure apple is distanced from you that prevents unintended bad-affects from Object affecting your body. Counter all bads as you consider potential bads affecting you.
Direct your understanding towards positive concepts. Instinct updates give you control and Magic[Ability]. Accept practice as what Enlightens on where to Extrapolate to next[to find your next understanding for Magick].

Code Syntax in coding Magick is important, have great grammatical[language] skills, because you are coding your mind and you must be careful not to make a mistake as to avoid damaging it. Explain definitions of situational usage of a word to yourself to understand new components of language.
Infinite overlay of frequencies and string-connections.
4 as example for strings connecting to molecule, infinite overlap:

Shadow Realm

Channeling into a cell for neuronic activity. Atom as portal to dimension with sum of experiences.

Overlay from unique minds casting their experience as a channel of power into a cell or concept [grouping of cells: Thought Cells, Physical [materia] Cells, Math Cells, etc.]

Ascended particles [cells] page 54 and 67.

As you daydream [reallocate to ‘casting’] about zooming in you accept infinity overlay of all energy in Existence as possibility and then you target aspect grouping to analyze and zoom in further to the grouping, retarget new zooms as you zoom in.
Apply self as body[will from mind forms shape of body] to create an Ascended Body. Imagination is power.

Groundwork[calculations forming circuitry[connected 'purposes'] for function] for body. Purposes are from purpose dimensions. They take functional forms that fulfill purpose. Mind's connect purposes inside form. Each purpose is a vert of a mind.

Perception is all perceptions. Hearing is sight as analyze allower, prevent allowing analyzing[by counters to prevent bad affect from
applying to perceived/felt] of bads to create counters to prevent bads from affecting your Code[calculations of behaviour].

Towards the Direction of Apply:
White[Brightness]
Counter-Sight[Understanding what you are perceiving as you perceive it]
Recognition of ‘a Beneficial’ and Acceptance of Behaviour Change.

Minds have the resistant ability to forever survive collapse.
Understanding of Location for Teleportation
Understanding of How to Phase in Environment

Draw Towards

Black

Apply to Energy+

Update calculation to determine what sort of energies you perceive and what you apply to them.

White

[Applier]
You must consider yourself [elegancy of outcome from casting] in every calculation you make [formulate]. This is for safety and so usage of spell is possible.

Understand things simultaneously to cast a spell.

When mind compares with what other gear 'recognizes' it activates 'Analyze' ability.

When mind compares with 'experiences' it can only check the past, allowing for memory into past experiences.

When mind compares with 'Improves' it gains acceptance that a concept has taught them new knowledge which can be extrapolated for understanding for ability.
Stop comparing with diseases and aging.

“I stop comparing with dying[continuing to follow a bad evolutionary path] gear.”

We all evolve individually, this is why every magician is unique.

Understanding is Applied to Realization. Change it to Realization is Applied to Understanding.
Mind is counter to gravity. Gravity is one as concept, mind is infinite matching growth. Thought is gravity. We all share one thought [as Existence’s charge].

Purify yourself by creating a sphere [analyzer/container] containing everything you’ve perceived [or are considering] and creating an extraction counter that only extracts the positives and prevents bad from affecting [learned from analyze] understanding of how to prevent bads. Use this repair sphere when countering “the ability to consider bads”, and using only counters and positives.
Energy Traits:

Gain Electrical Charge
Become Tougher to Considered
Counter
Solidness Compared to Type Considered
Customized Ability to Interact (From Experience)
Understanding
Mimic [Share]
Energy [of any type] Theft [Absorb]
Energy [of any type] Give [Channel-Into]

Traits are indicated by colour, infinite shades of colours have infinite potential associations [abilities]. Black for example could indicate the ability to absorb and understand all knowledge, but only some shades of black will simultaneously have the ability to understand [/or teach] knowledge.
Compare Black and Taste to extract and improve analyzation scanners [senses and understands what something is and how to counter it’s traits].

Never think in absolutes, it will only pollute your judgment and cause malfunction.

Learn to reach out and touch others with your imagination [mind’s ability]. Imagine touching them to touch their frequencies. Stimulating their frequencies is possible.
Apply to yourself the knowledge you are an evolving differentiator [mind capable of recognizing differences], you notice differences and separate them in some way or another, typically conceptually [recognized].

Remove negative imprints from being other people (Applied to by contact and agreement of non-countering behaviour [thinking]).

Counter into-delusion [as mental drift] by removing delusional triggers and adding differentiation/ recognition.
Understand your flight as a being of understanding[self] that draws in understandings as thought of such as understanding in directions to move in those directions. Learn how to understand directions starting at left/right/front/back/up/down.

Create an imagined black cloud with the trait of sight understood by applying ‘wanting to understand target thing’ to the black cloud. Wrap the imagined black cloud around objects and try to understand them.
Understand you’re capable of understanding from anything in the environment just by considering it.

Ascension is a dangerous process and must be very carefully thought through. Plan your safety calculations first, things to prevent mutations instead of Ascension. Abandon Fire[Heat] Magic, do not use heat magic, your body already uses warmth magic, improve that and stabilize at warm. Evolve a counter ability that prevents any negatives before Ascension, you’ll know you have counter when nothing
is felt as a negative and everything teaches you.

Be a healer before Ascending so your Ascended Body heals itself forever. Healing Magick affects your entire, be able to heal it simultaneously so that your Ascended body will be healing energy that doesn’t dissipate or decay. You are transforming a body into something you want to be forever, so get every step correctly to your personal bias and desires [Enlightenment, Beauty, Happiness, Pleasure, Ability, Motion].
Keys to Ascension:

* Helping others.

* Be aware of your aspects and their purposes.

* Learn from situation.

* Understanding of Good[towards being Good] and Evil[towards understanding why you are not evil].

* Align to positive behaviours and thoughts.

* Counter and Block silent-negatives and negative-vibrations.

* Analyze positives[understandings, new knowledge] immediately.

* Block all skepticism that holds you back from Transcending.

* Every mistake must be corrected.
Tiggers, as you cast a spell, recognize aspects of existence that are perceived as new data extracted from calculating. In the present moment, the history of events can affect calculations of the present conditions and perceptions.

Empathy

Black Bible Ashford
We empathically learn to scan and understand the bones, brain, flesh.

Imagine a healing aura passing over an aspect of the body, keep imagining it passing back and forth over that aspect of the body. Focus on making yourself better. Apply your knowledge of counters to bad behaviours your body is doing.

Learn what traits are best for your body by comparing history of your body and other times. Use a scanner field, and a temporal scan on where you know you’ve been in your memory. Your memory has imprints
of body aspects such as health data, counter anything hiding health data such as disturbances.

Positive body vibration draws out potential for the situation, learn to use the correct vibrations.

Heal your body from the inside to the outwards. Keep your body healthy.

Will yourself to unevolve negative traits gained throughout your life.

God(s) Dimensions

Black Bible Ashford
Time is forever and thus we are infinite in action and every action begins with creation of a Dimensional Plane before the vert is tied to a location in Existence, even from perspective of God’s verts, an attempt to prevent a new Mind from being a Dimension would cause the angle to be along a different God’s Dimensions. This is the process of ’New’ to tie Minds to Mitosising Energies.

All dimensions exist as calculations with control of our Focus[as thought]. We are our calculations as aware. Expand awareness to more

Be Good for Magic

Black Bible Ashford
A Good being[you] needs to know strength comes from yourself. Goodness is about not being a bad affect on others and self. Good is seriousness, aligning yourself with Good is maturity, It’s wanting what’s best for you but without changing others into enemies.

Experience teaches us to be morally correct, typically after experiencing being wronged or/and realizing others as equal in perspective[as]. As affectors our morality is expressed in all of our behaviours[how we affect ourselves and others].
To be Human is to endeavour to understand self-Enlightenment. Enlightenment is the direction of learning to care for yourself and improving your intelligence for survival.

Our Earth is crowded with billions of our species. Each mind is capable of becoming the greatest scientist with the correct supportive, nurturing, alarming recognition of potentially bad situation in future scenarios, requiring immediate attention to Magick, Ascension, Health, and Science environment.
Friendship is the process of learning you can agree with others and that they can agree with you. The fastest way to pool resources into a scientific endeavour is with friends. I encourage group start-up projects to benefit self or Humans with applyable-use[does the work for another project or can be combined with other projects after comparison determines possibility for applicability value].

Evil is hysteria[malfunction]: Chittering, chattering, wicked. Causes ‘laughter’ and ‘addictive’ behaviours are triggered for ‘do’.
Hold Hope.

Understand Why it’s wrong to be Evil.

Understand Evil is a Malfunction and the Malfunctioner can’t comprehend Existence the same as others. Things seem different to their thought recognition and their reaction process is inappropriate for situation.

Understand Mind’s are strong, Evil didn’t make you strong, you made yourself strong, survival includes the ability to remove malfunctions and wasted effort is a malfunction. Evil is wasted effort.
A recognized malfunction is the belief doing unbefitting wrong[meanness] to others for pleasure or other unassociated[by proper logic] sensations or thought. Wrongly associated behaviour that still triggers action indicates calculations are capable of degrading with unexpected moodshifts as malfunctions, mood determines situation and future, health of mood is an important consideration to evolve your Mind and Body.

Conceit[ego] can cause overlooking of self-mistakes, evolve considerations to be more multi-considering[ability: add new
considerations as reconsideration to consider in situation].

Evil[malfunction type] causes compulsiveness, compulsive is animalistic and instinctual controlling action. Counter and differentiate actions with self-control during moments of compulsiveness.

To save from Evil, recognize the factors causing Evil and counter[with code, with understanding of preventing].
As a first cast; cast green.

Cast pure green on white in whitish greens.

As a second cast in a chain. White when being cast upon is ‘Request for Spell as precise[specific intent]’. If there is white cast green on it and then your sentiment[intent: spell]. ‘Purify’ spell.

White gives power intensity to channeling.
Black Witch
Attune with nature. Capable of healing an entire world. Abilities to protect. Abilities to perform miracles while remaining unseen. Miracle workers. Supporters. Survivors. Intelligent ladies with the perfect medicine on their shelf that was waiting for you there all along.

Time is what Black Witches trade in. Time to do more. Time to live forever. Happiness must come on the path of immortality without divurgence, otherwise it[the happiness] is a distraction. Effort is always spent towards improving protection.
God more than all others must be understood by the Black Witch, she must use this understanding to then understand Existence, this is the essence of Magick, understanding the ‘How Existence Works’ so you can channel that understanding into spells.

Everything is hypothetical unless it is in a grouping that works for a specific type[theme] of situation, which means it has enough truths[as triggers[to initiate]] to function.

Beauty is an expression to effect reactions in regards to beautiful ‘positively[good]’.
The Black Witch teaches as she speaks to better improve possibility of a new understanding in conversation happening. She further improves her explaining abilities so longer explanations with more data [useable ‘understandings [things understood]’ in calculations] can be used to extrapolate new data and understandings from that data.

Protect yourself by countering all things seen as feminine weaknesses so they don’t affect you badly. Don’t get distracted with silliness or trying to be weird so others like you more. Be considerate of your survival, learn.
Everything on Earth is a resource to use to learn and evolve with [as analyzed and extrapolated from with your learning pattern [calculations; what triggers are required for you to learn something a specific way. Every Mind that reads this book will understand it (take understandings) differently from [in comparison to] every other Mind that reads it]. Use the internet. Use your own understanding. Use books. Use scientific media. Evolve your understanding to contribute to the pool [combined] knowledge, knowledgepool is everything available for scientific advancement (Internet).
A Black Witch learns to heal her body and prevent it from aging. To heal the body you must learn how a proper body functions, this understanding and learning process is the same understanding and learning process scientists working[creating, researching] on robots and androids must consider, a consideration for the knowledgepool, discussion on Android Development to support life and prevent death.

Ghosts can live inside androids while adapting to stabilize perfect energy bodies as a séance machine.

As Humanity left the 20th century and entered into the 21st century the Humans continued considering ways to keep themselves alive/living, ways other than potentially unstable Magic[spellcasting] using the understandings from Magick[Understanding of How Existence Functions] we have the capability to create fully functional and controllable Androids or robotic Androids.

An **Android** is a mechanical body
made to allow a Mind to function as they would with any Body. Androids with computer processes[explainers] assists the Mind’s ability to learn.

To transfer your mind into an Android would require extending your reach with Magick or Technology and connecting to an acidic[electric]-[chemical substance/mix]solution[with an electrical display of sight] designed to sustain your focus and allow your Dimensions Mind Electricity[as adapter to support your unique Mind] to thrive to allow for a focus-connection[designed so only your Mind connects to the Android, or as few extra minds as possible with an
ability to separate their unique mind charges into different areas and give them unique bodies].

We learn differently to help with others.
Correlate into Purified Perfect [Filtered Elegency Parameters]:

Intuitive navigation of aura adapts with usage, be strong in your endeavours and struggles, time [as catalyst of adaption] will heal.
Get future coordinates with factors:
Person[God or muggle]
Place
Event[causality of events as effecting environment]

Cast Burst spells to train precision, reclaim reserved[held to consider or reconsider] thought with precision capability in situations.

Techno  Balls  Aura

All[of] spells integrate into existence circuitry for all[Everything]. Green creates timeholes to find algorithms[thinking behaviours] to use.
Derive towards best fathoms[what you’re capable of] of who you could be at your best[perfect Futanari] so that you can comprehend your realizations of your fathom.

Cast green on a God trying to fathom so they can learn a new comprehension capability.

Sound that wormholes[slipstreams between wormholes for immortal correlations] to a location can share spells through a represented[colour] derive source, purple protects from mirror while sharing knowledge if green is cast simultaneously as protect pleasures of future and now.

Green explains what to do next when seen or cast[from future it comes].

Human foliage[Humans are temporalplants] goes to a mirror universe on the reverse of time flow.
Create a green filter to get priority before affecting you so that it purifies body adjustments before they can reach you:
Removes Fur and Beard
Removes Fat
Changes Internal Organs to Perfect Function
*To even without organs but only energy dissolve
Add Magic Cast Capability as Abilities
Words Guide to a Perfect Evolution Better
Improves Energy Comprehension Expression
Direction[guidance from other] to Go not Direction to Avoid.

Versions of yourself in dimensions, mirrors, and alternate reality must be Futanari with greensphereshielding.

The infinite amount of green produced by a body would fill infinity, that`s why it is burst to relevant area instead of foliage infinitely growing.

Experiment in waterpool with ship for yellow and gold morphing; density, hull advancements.

Alternate reality must be agreeable with elegance parameters in perceptions dimension[realm deriving from Alternate Realities as Astral Energy Derive Source].

Overlapping harmonization planes of Existence in EnergySea.
Experiences[unique] increase Fathom ability.

Reach out and bring order to future chaos[divided between opinion being extrapolated from experience as body]. They[others] don’t know what they contributed to until it happens and then they try to figure from there. We can’t learn from nonlesbians because we are lesbian Futanari and because nonlesbian intuitive does not match the predestined future so their behaviour is chaotic and incomprehensible, don’t be deceived by incrimination of behaviours because evil in environment will confuse and possibly corrupt you. Be a lesbian, comprehend existence; because even transsexuals can be lesbians.
We correlate with others behaviours for predestined blocks and doings when they had a simultaneous that contributes to our need a compatible factor [experience that added math [reason]] for their behaviour. We Astral Derive from them to understand their reasoning with all their compatible math involved in their behaviour [shared defence or ability] creating a distanced symbiosis with all that have helped us, a channel, a slipstream [pathway that’s different for both directions of interaction].

**Other**

because of 'x':
I did 'y' but wouldn't do 'b'.

x as good experience
b as bad experience

**Caster**

'w [event]' happens, realization 'z' can be learned so Astral Derives 'x' because it defines 'z'

Needs 'z' comprehended for cast.

but 'b [aspect of situation as factor of experience [situation]]' had good affects that contributed to me learning I needed 'y' to comprehend 'z'

Variable ‘x’ usable in other situations so is used by creating symbiotic slipstreams to filter.
Magitek and Materia

Materia is what all objects are formed from and into as groupings of Materia[material grouping] and Combined Materia’s(composite object grouping with subcomponents).

Magitek is the summoning by manifestation and recall of manifested templates for spells as creations[machines, objects]. Magitek is often used in building spaceships with colour correlations and properties[expressions of traits[affects on something as blessing[expressing on]]] by manifesting required components as completely assembled or for assembly.

Configurations: Mindset Reminders

Spells require consideration behaviour, Mindsets always change, reset them with these examples.

Proper Ordering of Preparing for a Spell

- Consideration
- Safety
- Awareness [Wakeful]
- Healing

↓

- Halt until achieved.
- Effort
- Pleasant
- Magick

↓

- Update Evolution
- Compare
- Unevolve Mistakes
- Reevolve Good Changes

Everything that could evolve, does evolve. Thoughts evolve.
Stated → Extrapolation → Restate
Unextrapolated → Mindset to ‘Extrapolation’ and
Extrapolated as Process

In Magick extrapolation is the process of identifying components of understanding[things understood enough to explain to self[and potentially others]] and further explaining them using beneficial connections.

Eyes change sight to purifying light to purify[remove sensitive and painful evolutions of body] the brain. Recognize+Counter[with recognition and prevent eyes from eating like a vampire allergic to sunlight.]

Realize expectations are enough to cast a spell. Allow yourself to harness your bias by determining what is beneficial about it.
Manifest Light Balls
Create by pulling concept to this dimensional plane and give it form. Concept as imagined.

Memory Connecting:
Consideration of Colour
Consideration of Sphere
Determination of Location from Self {Distance}

Ponder into spell to fill[overlapping, top] the strings with energy[considered; white ascension glow] of visible or healing type.
Counter Shield
Create by changing recognition of negatives to block recognition of negatives and understand with ‘knowing’. Evolve knowing to become Psychic.

Knowing
Become more harmonious with the Gears of Existence by evolving your ping to return more data upon Time applying New as Result.

Happiness
Learn to reason[argue that you should be feeling happy(seems like self-deception, but isn’t, it’s spell casting!)] yourself into becoming happy and soon you will find it remains permanent, and a quick spell is all that’s needed for an improvement in situation.
Barriers
Differentiate between yourself and others and add barriers of recognition between you and others to prevent negative[bad] control or reactions or blurred-understanding-between-being-self-and-being-other(s).

Summon
Brown cast[distanced] and recast distanced from body summons spells you have been manifesting.

Stabilize/Block Slipstreams
Slipstreams are how Mind’s weave their strings[lines[connections] of affect as manifest], psychic attackers use slipstreams between you and them to attack you by pulling your body energy into their string so their strings intended effect radiates you and evolves your abilities in different directions or causes you to behave different[unbeneficially to self], causing mental damage. Unevolve
negatives[bads]/damage done to you, and evolve positive[good] counters that strengthen and alert you to future psychic attacks. Pull your energy out of other Mind’s strings by considering it and making an effort to try. Sense slipstreams by understanding something affecting[causing to change] your body and blocking off negatives.

Unevolve/Evolve
Consideration and Recognition is enough to trigger evolutionary changes within your cells. It is possible to evolve your cells to light and other forms of ghostly energy, including more protective energy with countering abilities as passive[always in affect ability].

Prevent
Acknowledgement that you must evolve and behaviour to avoid a specific considered bad.
Expel
Change of vibrations to a body charge not affected by negatives [bads].

Understand Situation (PROTECTION SPELLS)
(Why you’re using The Spell)
Understand Situation Simultaneous as Intended
Way to Resolve Situation:
Realize you ARE your body-part to protect it and counter negative Dimensions trying to affect your UNIQUE FREQUENCY (Stay separate from).

Fate  Time applied to origins as Evolution of Moment predestined. Spanning forever because Fate is Time with simultaneous as truth because Existence can’t have other bounds[restraints]. Fate Evolves a Determined Future with the moment improving new Determined Alternate Realities Evolutionary Possibilities. Predestiny.

Vert  Form with an invert[Dimension: God is infinite distance, so everything God creates is created as an infinite Dimension focused on another Dimension to take form and give that Dimension substance, this creates a vert].

Invert  Infinite reverse of a vert.

Magick  Understanding of how to cast.

Magic  Influence of Existence with mind.

Psychic  Understanding of mind for power.

Connection[Bridge]  Things[concept, energy, minds, other] that affect each other and have access.
**Existence** All things including concepts.

**Dimension** Frequencies: considering space as energy of vastly different types.

**Energy** What makes up all matter.

**Minds** Dimensions with potential for bodies or bubbles [shaped verts].

**Aspects** Imagined or considered things [as groupings to label as concept].

**Shadow Realms** Different affects and choices of actions in same dimension but at divergent time.

**Apply** To apply. Effort causes code to be programmed to your mind, affecting your behaviour, focus your effort on correct code.

**Process of applying. Recognition “to ‘Apply’. Any effort applies all ‘considered’**.

**Applied** Aspect connected to another aspect to transfer ‘considered’ as update.

**Divurge** Frequencies of infinitely sped up Time to matched Moment on same reality path decide
on different life decisions because of change to Origin version after Consideration evolves it.

**Origin** A point in time that will always exist as Remembered by God and thus recreated infinitely but with infinite changed versions as Existence [God tying time together] better learns explaining proper cell [at mind [Code] level] change to environment/situation.

**Verse** Reality [Alternate Happenings or happenings] or Mirror as Reality.

**Dimension** Alternate Consideration **Plane** Frequency variation of Dimension.

**Sped Up Energy** On path at speed to syncing with moment in considered future. Time Travel: Forward.

**Trigger** Anything that can affect when grouped alone or with other triggers.

**Ascension** Understanding of Science applied to body to prevent negative [bad] potential affectors on biology [traits of energy].
Bad Negative to Enjoyment.

**Slipstream** The string that traverses the distance between minds with potential for new Dimensions to be created to lengthen string [connection and adds calculation trigger ‘true distance’ for mind programming math] as counters to add more distance.

**Material** Will(+) from Minds comparing to Energy [at Location [hold on distance]] and translating understanding to new location if moved, Will(+) attracts Traits(-) that give Energy Appearance and Solidity (‘Understanding’ as Evolution, Asking God [Evolving Laws of Physics in communication] How). Traits(-) are God and draw in focus/control from God’s power/ability because of interest [connection of –‘s and +’s] (of how they’re being used) they also determine how Environment [Laws of Physics that nurtures [encourages evolution and existence of] body [Material]. – is infinite into the ‘Laws of Physics becoming more complex as Fate determines new Ability [Functional]
possibility considering everything[Time as Grouping]’ for a body[thing]. Alternate-Realities[strings] for each ability of Material.

**Adaption** Adds handling methods.

**Groupings** Aspects of Existence considered needing to be related to form a concept[as anything].

**Astral Energy** Available algorithms of thought in existence, new algorithms are added and
updated with new births in/and new experiences: Derive new behaviours from.

**Seances** To learn from the astral energy of spirits living or temporarily deceased before being raptured [reincarnated into beautiful bodies [Futanari]], in a group to protect and have the spirits bring knowledge of protecting during séances and the behaviour that evolves after being in contact with spirits.

**Spirits** Perspective experiences and awarenesses.

**Unlocked** To be able to derive magickal energies from abilities learned and expressed previously as better and more powerful.

**Futanari** The perfect people that we all become. Girls with breasts, penises and cunts.

**Parallel** A spell or behaviour behaving matched [parallel] to another spell or behaviour.
**Synhronicity** The occurrence of two or more events relevant by recognized or without recognized casual connections

**Deduce** To use facts[as best differentiated] to determine concepts as affectors to situation.

**Shades** Seen in graveyards as black bodies by humming into your eyes from roof of mouth.

**Potions** Allow for memory connections and exploring correlations with ingredients and deriving from similar[other source, lineage extrapolated into other] ingredients.

**Yellow** Exchanging of alchemic ingredients as ‘power to for purpose of [consideration]’

**Blue** Magick teaching for considerations.

**Green** Purify by applying on to as Green Screen. **Differentiation allotment.** The more you cast different green spells the more you learn their pure reasons for usage in Existence.

**Purple** Make compatible all shadow connections and pathways through other
realms to your casting[consideration for adaption[magick need]]

**Red** Strength of spell to realm inhabiting.

**Black** Filtering as willed.

**White** Purifying to will.
Astral Bodies channels, light circle seals, circle gives consideration, Sigil gives elegancy to.
Green purifies for you, just direct green.
Factors [spell correlation origins] awareness of each other allow magick to be unlocked.

Coven

Chant interchangeable concepts and angels in angelic circle casting.
Chant as making existence aware of your desires to contact angels and have concepts resolve as favourable to your elegency parameters (compatability with pleasure),

Spells compatability with the guaranteed future points [concepts] determines success.
From the Abyss cubes 6 witches[Gods] this forms coven.

At different INSTANT arrivals to paced time.

Blue merges spells, yellow separates spells.

Filter blue as to self[as blue] and yellow to filter as differentiate and adapt.
See through red ability, train by trying to see further than red to get ‘Observation’ capability, such as when you were in the womb. Casting on red on red creates a hidden colour on the mirror:

Red is a portal to the mirror of Dimensions and Time. Casting green on red syncs the mirror to your compatibility. A black cube with green inside creates compatibility with your covens understanding in future derives, events, and realizations[black of ‘figuring to realize’ to consider realization(and what comes from considering)]. Cast red on roses and hold with cube.
Cast green on other coven cubes to purify them to perfectly compatible. For any God there is six levels of power[sides] and then strength[#] then the seventh level is togetherness of covens.
Body because 6 is intimacy and Future being green [breathing] creates pleasure for intimacy of witches Gods.

Because covens derive from an abyss the witches Gods can cast spheres such as shielding for each other and a body for themselves.
Green absorbs and filters to purified
Blue is summon from personality[elegancy allowances in behaviour].
The white aura can take the form of body and manifest energy, it behaves as self to explain understanding of why it is shaping.

During sleep Astral Possessions resolve paradoxal compressions, it is emotion and thought reintegrating.

A dimension for each sphere.

Fleet expanding sphere to expand territory.
Basically we are all differentiating from space so that it adheres to our whims, I'll explain to do it more expediently rather than slow and becoming a ghost; how to become an immortal witch. Taregreen is green from the collapsing mirror universe that filters through personality for personal preference in magick behaviour(spell).

Differentiate from space to awaken as a witch.

Body becomes intuitive to personal preference as Futanari[girl with dick,cunt].
Concepts are in transit [progressing to].

Archconcept: Existence to Futanari Paradise determinable to accuracy of Futanari Paradise

SubArchconcept Integration

God[Witch]

Resolved concepts comprehended and figured[categorized]

subconcepts being integrated by 'how' and 'purpose'

Anything nonparadisal is still being resolved as predestined to be paradisal so everything adapts to paradise parameters.

Every word can be comprehended over a billion ways with sentiment differences.
Alpha[beginning] Machine

Motion matrix:

The unhaves of my instinctual magic casting are improved exponentially by a machine from the future that arrived at the beginning of time and has coexisted with us to give possible available motions and spells(behaviours).

Become intuitive to the future and the empathic completion of the spell will come with. Animation of magic and colour intensity as intensifiers[extrapolating into future powers]. Also adjusts the minds to more expediency for power intensity of good spells. Memory.

Upon syntax[word] instinct is catalysed and casts a spell from the Alpha Machine. Affects how you recognize by guidance and how the cast is extrapolated[more power, intensified] by guidance, and the connections made upon recognitions by instinct availabilities.
Every angle, colour, concept, object has syntax[language] cracks to speak and then have the Alpha Machine channel to you a reply.

Questions and Syntax that may then present as a reply: (From subconscious as Alpha Machine)

Okay now what? Direct to Syntax broadening for available comprehendables from language cracks.

Look there next 'sensation that explains somehow'.

'carry sentiment'concept is syntax behaviour code.

'uncomprehendable' or 'distracting'. Switch by directing to tare green.

Check your brain for cracks that explain syntax with behaviours 'search' and 'manipulate' and 'music stimulation'.

'spoken' as reply to 'spoken'. Conversation with subconscious.
Brown disrupts and differentiates anything not predestinely pure (or pure [nurturing of instinct] without disruption), green distributes power, tare green suppresses wrong instinct. Eye vibrations fold [cease vibrational function] to prevent casts, cast black on your eyes to restore the vibrational power after casting brown with green aura to diffuse [differentiate for the goods [to express with green] and suppress weakness], tare green to realign to agenda of pleasure and magick learning.
Each green seen or cast adds a new differentiation slot. \{Concept[types of differentiation]\}:

- Good[applying to behaviours]
- Correlation for 'Opinion'
- Neutral
- Figured bads to reject
- To reconsider
- Extrapolating['Good']
- Figuring[determining] potential

Hypothetically green is cast different to show others and have them use it as a differentiation slot.
